

REMARKS

The amendment to the specification adds a reference to a grant from the National Institutes of Health which was used in part to support research relating to the subject invention.

The Examiner is requiring that Applicants make an election of species. The Examiner indicates that Applicants must make an election of species among the disorders specified in original claim 3 including Parkinson's disease, autism, attention deficit disorder, schizophrenia, memory loss, and sexual dysfunction. Applicants elect Parkinson's disease among the disorders specified in claim 3. Claim 1 has been amended to comply with the requirement for an election of species, and claim 3 has been cancelled without prejudice. The claims readable on the elected species are claims 1-12.

Applicants submit that this application is entitled to favorable consideration, culminating in allowance. Such action is respectfully requested.

Respectfully submitted
